

*Nebel  
case file*

4 December 1944

TO : Mr. Pearson  
FROM : Mr. Tenney  
SUBJECT: Counter-Sabotage Reading

Re the NEBEL case, I would like to suggest that members of the counter-sabotage group meet with Lieutenant Martin for full discussion of angles in the case which are of interest to them.

If members of the group attempt to go through the case file singly it will cause confusion and the documents will not be available to Lieutenant Martin for processing.
